

How to Join a TEAMS Meeting as a Guest

The organizers will provide a link to join the meeting.

Clicking on the link will open a browser page (we recommend using Google Chrome and pasting the link into an incognito window).

If a prompt appears asking to open Microsoft Teams as an application, click "Cancel" and choose instead of continuing in the browser, granting access to your camera and microphone if prompted.

Next, enter your name, turn your camera and microphone on or off as appropriate, and finally click the "Join now" button. A notification will be sent to the meeting organizers, who will admit you to the Teams meeting as soon as possible.
